(25% of overall grade)

Indicator 13 Checklist Review Directions

You will use a copy of a student's IEP who is 15 or older (please obtain permission with teacher/family). If you cannot access one, please contact me. Use the Indicator 13 Checklist Template, found on Blackboard, to review the information in the IEP.

Discuss in a reflection (a) what was present, (b) the quality of the information that was present (using readings and course knowledge to evaluate), and (c) additional information that you would consider as important. In what ways do you feel that the transition section is designed appropriately to meet this student's goals and objectives? Please refer to the rubric on Blackboard. You will submit your review in Blackboard as a word document by the due date.
